Nephi, Utah 84648

Re: ACT/049/007
Long Canyon Mine

Dear Mr. Steele:

After examining your June 22, 1978 letter of compliance with Rule M-10 we feel that adequate factual information is present in your file to take the following action:

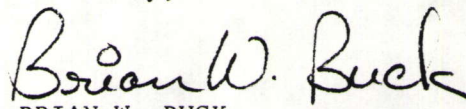

In regard to M-10(3), Impoundments, Interstate Brick is granted a waiver as long as an overflow ditch leading to the drainage north of the impoundment is built according to Division specifications.

In regard to M-10(8), Drainages, Interstate Brick is granted a waiver applicable only to the drainage to be impounded and disturbed by the open pit.

In regard to M-10(11), Sediment Control, Interstate Brick is granted a variance from constructing sediment control facilities as long as reasonable care is taken to prevent excessive erosion of disturbed surfaces.

The above action is based upon the status of the file on this date and substantial modifications of the plan could cause appropriate modification of this action by the Division.

Sincerely,

BRIAN W. BUCK
ENGINEERING GEOLOGIST
